

## MOONSHARES COOPERATIVE MEMBERSHIP

Dear friend of the Earth Pathways Diary,

We are now fully registered as an Industrial Provident Society with Cooperatives UK and our intention is to use the profits from our diary to seed-fund projects that help the Earth.

To become a member of our cooperative, members pay a non-returnable donation into the Seed Fund and 100% of this will be used, along with any profits from the diary, to seed fund the projects. Members can propose the projects we support and also vote on these projects - one member, one vote.

We thank you and appreciate your support.
